

Care for the Family

Care for the Family is a charity which was founded in 1988 by Rob Parsons, because he believed it was important for families to be cared for. They are committed to providing support that strengthens family life and helps those who are hurting because of family difficulty. During the past 35 years hundreds of thousands of people have attended their seminars and their staff of over 80 plus many volunteers, support single parents, those parenting children with additional needs, bereaved parents and a host of other family situations. They work very hard to produce world class resources to help families. Their three main focuses are marriage, parenting and bereavement.

Please pray that Care for the Family will continue to work to support families, so that when there are difficulties in family life, people will know where they can turn to for help.

Please pray that Care for the family will continue to receive prayer & finances from their supporters, who also have a heart for families.

Praise God for all the families who have had their lives changed through the love , care & compassion which they received from Care for the Family.
